

This week's wider curriculum activities are: the next step from your child's science learning sequence, some fun science experiments, an introduction to Anglo-Saxon life for history and some PE activities.

This document will give you an overview of the activities and explain which online documents link to each activity.

These can be viewed on a mobile phone/tablet/laptop/computer and completed in a range of ways e.g. verbally or on a separate piece of paper. Tasks do not have to be printed. If you feel your child can't complete a task without printing, and you do not have access to a printer, then do not worry about completing this task.

We would love to see your learning through dojo 😊
